

Coding tips

1. Create links

[[text]]

[[passage name|text]]

[[Text -> Passage]]

2. Format text

Bold ****text****

Italics *//text//*

Centre <center>text</center>

3. Change colour of text

(color: "red") or (color: "green") [text hook]

4. Search prompt

(set: \$search to (prompt: "Your search terms:", ""))

5. Add hidden or appended text

There are three episodes in the game. You have choices to make in each.

(click-append: ?episodes)[(do you play them all or not?)]

6. Set variable (e.g., for scores)

Step 1: (set: \$points to 0) Insert this code/take this step in your first passage

Step 2: (set: \$points to \$points + 5) Insert this code/take this step in the passage where participant will have earned 5 points.
